

Technical Reports

Advisory Committee on the Microbiological Safety of Food (ACMSF) Working Group on Antimicrobial Resistance (AMR)

Recommendations on the use of AMR Terminology/Nomenclature when used in FSA Reports

The following reports are available from the Committee secretariat:

- Report on Poultry meat (1996)
- Report on Microbial Antibiotic Resistance in Relation to Food Safety (1999)
- Second Report in salmonella in Eggs (2001)
- Report on Mycobacterium bovis (2002)

The following reports are available from the ACMSF secretariat or can be downloaded from the [National Archives website](#):

- Vacuum Packaging and Associated Processes (1992)
- Salmonella in Eggs (1993)
- Interim Report on Campylobacter (1993)
- Verocytotoxin-Producing Escherichia coli (1995)
- Foodborne Viral Infections (1998)
- Second Report on Campylobacter (2005)
- Infant Botulism (July 2006)
- Botulism in Cattle (December 2006)
- The Safe Cooking of Burgers (2007)
- Botulism in Sheep and Goats (2009)
- The Increased Incidence of Listeriosis in the UK (2009)
- Toxoplasma in the food chain (2012)
- An update on viruses in the food chain (2015)
- An update on the microbiological risk from shell eggs and their products (2016)
- Antimicrobial Resistance in the food chain; research questions and potential approaches (2018)
- Third Report on Campylobacter (2019)
- Report on multidimensional representation of risks (2020)

- Report on non-proteolytic *Clostridium botulinum* and vacuum and modified atmosphere packaged foods (2020).
