

ACM/480

ADVISORY COMMITTEE ON THE MICROBIOLOGICAL SAFETY OF FOOD

***MYCOBACTERIUM BOVIS* : THE CURRENT SITUATION IN CATTLE AND
MAN**

Consideration of this paper was deferred from the 37th meeting on 21 June 2000 (see minutes of 37th meeting - ACM/MIN/37, paragraph 12.1).

The information contained in ACM/480 was subsequently subsumed into ACM/491, which was discussed at the 38th meeting, on 19 September 2000.
