

**ADVISORY COMMITTEE ON THE MICROBIOLOGICAL SAFETY OF FOOD**

**Investing in Innovation. A strategy for science, engineering and technology.**

1. This report was published in July by DTI, Treasury and DfES. It follows the 2002 Spending Review (SR 2002) announcement and sets out the Government's strategy for science, underpinned by the new resources for science which came out of the SR2002 settlement. It also shows what steps the Government will be taking to strengthen the way departments use science and manage research.
2. A copy of the Executive Summary (plus the contents page and the Ministerial preface) are attached for the information of Members.

**Secretariat  
September 2002**

Department of Trade and Industry. HM Treasury. Department for Education and Skills. Investing in Innovation. A strategy for science, engineering and technology. July 2002.
