

ADVISORY COMMITTEE ON THE MICROBIOLOGICAL SAFETY OF FOOD

INFORMATION PAPER

**Microbiological safety of food funders group
listeria monocytogenes and *yersinia enterocolitica* reports**

The attached papers provide an overview of publicly funded research relating to *Listeria monocytogenes* and *Yersinia enterocolitica* from 1990 to the end of 2003. These reports have been drafted by the MSFFG Co-ordinator, Dr Celia Caulcott and are based on project information provided by the Members of the Microbiological Safety of Food Funders Group (MSFFG). The interpretation of this information has not been subject to approval by individual contractor.

Members should note that both these reports have been published on the Food Standards Agency website. These are provided to Members for information.

**Secretariat
June 2005**

Microbiological Safety of Food Funders Group reports on *Listeria monocytogenes* and *Yersinia enterocolitica* are available on the FSA website at <http://www.food.gov.uk/multimedia/pdfs/msffglisteria.pdf> and <http://www.food.gov.uk/multimedia/pdfs/msffgyersinia.pdf>
