

ADVISORY COMMITTEE ON THE MICROBIOLOGICAL SAFETY OF FOOD

UPDATE ON POULTRY SURVEILLANCE

Discussion Paper

Dr Richard Meldrum from the National Public Health Service for Wales will update the Committee on the three-year surveillance program examining the prevalence of *Campylobacter* and *Salmonella* in whole retail raw chicken. The final report is not yet available but a reference to a recently published journal article on the study is as follows: Meldrum RJ, Smith RMM, Wilson I G. J Food Protection 2006; **69(4)**: 928-31.
