INFORMATION PAPER**

**Report from the American Academy of Microbiology**

In November 2010 the American Academy of Microbiology published a report, "Global Food Safety: Keeping Food Safe from Farm to Table," based on a colloquium convened by the Academy in 2009. Colloquium participants with expertise in microbiology, public health, food science, and economics reviewed the current state of affairs in microbiological food safety around the world.

For Members' information, a full copy of the report and recommendations can be found on the Academy website at
