A report for the Alliance to Save our Antibiotics

Compassion in World Farming, the Soil Association and Sustain (founding members of the Alliance to Save Our Antibiotics) have recently published a report entitled Case Study of a Health Crisis: How human health is under threat from over-use of antibiotics in intensive livestock farming. The report is available at:

http://www.ciwf.org.uk/includes/documents/cm_docs/2011/c/case_study_of_a_health_crisis_a_report_for_the_alliance_to_save_our_antibiotics.pdf

A printed copy of the report has been provided for Members' information.
