

ADVISORY COMMITTEE ON THE MICROBIOLOGICAL SAFETY OF FOOD

INFORMATION PAPER

Microbiological Safety of Food Funders Group
Campylobacter 2007 Update Report

The attached report is an output of a review by the Microbiological Safety of Food Funders Group (MSFFG) on publicly funded research relating to *Campylobacter* in relation to safety of food from 2003 to August 2007. This report has been drafted by the MSFFG Co-ordinator, Dr Celia Caulcott and is based on project information provided by the Members of the MSFFG. The interpretation of this information has not been subject to approval by individual contractors. ACMSF Members should note that this report was published on the Food Standards Agency website in January 2008.
