Four Reports of LACORS/HPA Co-ordinated Food Liaison Group studies have been published on the following topics:

- Microbiological Assessment of Fresh Herbs from Retail Premises in the UK
- Evaluation of Hygiene Practices in Mobile Food Vendors in the UK
- Assessment of the Microbiological Safety of Ready-To-Eat Dried Seeds from Retail Premises in the United Kingdom with a focus on *Salmonella* spp.
- Microbiological Quality of Salad Vegetables and Sauces from Kebab Takeaway Restaurants

All four reports can be found on the HPA website at the following link:
